**Global Mobile WiFi Calling service for voice and messaging over WiFi networks (VoWiFi)**

With a one-time cost of \$5, get an optional Global Voice over WiFi (VoWiFi) dialer app on your smartphone or tablet to place free unlimited or cheap calls globally and receive free unlimited calls using your Global Mobile WiFi Pass Roaming Account with dedicated local telephone numbers available in 120+ countries with a state/city/area telephone code of your choice.

**Click HERE** to see the Smartphone Systems Global Roaming unlimited monthly plans in 120+ countries with 4500+ states/cities/area telephone codes with free unlimited outgoing and incoming calls in 60+ countries.

The Global Mobile WiFi Talk (Call) provides calls and texts over WiFi when cellular coverage is poor or nonexistent, granting enhanced indoor and rural area coverage. The Global Mobile WiFi Talk is essential an “always best connected experience” for you as a global traveler so you could be able to make and receive calls cheap and text messages wherever there is a WiFi spot, regardless of 3G/4G quality coverage. Compared to apps like Skype or Whatsapp, the Global WiFi Talk makes life easier by providing this connectivity seamlessly.

### **A worry-free roaming enabler**

With the Global Mobile Global WiFi Talk, you can make and receive calls when abroad, without the fear of bill shock and stay connected everywhere with your own value added services, reducing third party intervention.
